digital simplicity

empower
by **+**AdviserPlus

Goodbye ER process complexity. *Hello digital simplicity.*

Underpinned by digital simplification of people processes, **empower** takes the complexity out of HR.

Our technology, providing digital simplicity, lies at the very heart of what we do. This is supported by complementary services that help build a positive culture, making employee relations simple, easy to access and agile.

Based upon your objectives and our expertise and experience, we'll work with you to review and simplify your ER process and build your bespoke version of **empower**.

empower addresses the challenges facing HR leaders today:

"I want to take out cost, improve service delivery to the business and drive employee engagement."

"I want line managers to take greater ownership of people matters, but they have an over-reliance on HR and lack the tools, capability and confidence to do so."

"I have limited people metrics and so I lack visibility of what's happening across the organisation to inform my decisions."

"I have an HR team distracted by tactical matters, when I want them focused on delivering against strategy."

"I have processes applied in different ways in different parts of the business and this inconsistency introduces risk."

"I have a sickness rate that is too high and lack the tools for managers to address it at the front line."
